Trial Eligibility and ORTs

The ORT Title must be earned at least 14 days before a trial opening date to be eligible for the first draw period. All odors must be passed in order to earn the ORT title. It is not required that they all be passed at the same test.

Basic Description of the Test

To successfully pass an ORT a dog must identify the location of the target odor and the handler must correctly call an "alert" within a three-minute time period. The Odor Recognition Test consists of a drill type exercise which requires 12 closed boxes typically set up in a pattern of two rows, spaced a minimum of 48" apart. The ORT is conducted on leash. Complete information can be obtained on the NACSW website. Handlers may test on all 3 odors at the same test.

*All exhibitors should obtain and review a copy of the **NACSW K9 NOSE WORK® RULE BOOK**. You may get it from their website: www.NACSW.net*

No dog will be given more than one space in the same odor test at a single event.

Results

During the odor re-sets, the official results sheet will be brought out to the parking area for testers to photo or review. We recommend you verify your results on the official results sheet and let your host or judge know if you have any questions regarding your results.

LOCATION DETAILS

Modeled after real-life detection work, NACSW trials are held in many different locations, with a variety of terrain, under varying weather conditions. Dogs and handlers need to be able to safely negotiate a variety of surfaces, including, but not limited to, tile, linoleum, carpeting, gravel, asphalt, uneven surfaces, and slippery footing. Handlers should be prepared to deal with a variety of weather conditions, including heat, cold, rain and snow. Trials frequently require covering extensive distances to get to and from the parking area to each of the search areas and generally require that this be done across natural, uneven surfaces. Handlers should be prepared for the physical demands and must be able to navigate the terrain with their dog accordingly. Participants should expect to spend most of the day outside or in their vehicles as there are rarely indoor crating options at trials. Please be prepared for you and your canine partner to deal with all of these varying environmental challenges. Handlers should familiarize themselves with potential regional risks and health concerns that may affect themselves or their dogs. Handlers agree that they are entering this trial at their own risk.

ADA Site Specific Conditions

This ORT will take place at a ground floor training center at the end of a dead-end street, with the building entrance easily accessible from the parking lot; the building does not have any stairs. The parking lot, including the pathway leading to the building, is paved asphalt, with a hard-packed dirt parking area well beyond that, which could require you to navigate uneven terrain, including a transition from hard-packed dirt to asphalt. The flooring in the test area is Great Mats matting. The facility is climate controlled, with AC/heat as needed. Two restrooms are located inside the building, adjacent to (but will be visually blocked from) the ORT area and may be used during the testing.

Due to unforeseen conditions, such as weather or change in availability of areas at the location, these conditions may be modified at the last minute.

Parking

The parking lot is paved with limited, to no shade, available, depending on the movement of the sun. There is a hard-packed dirt parking area beyond the paved area, with limited shade available during the day. Due to unforeseen conditions, such as weather or change in availability of areas at the location, this policy may be modified at the last minute.

Reactive Dog Parking

There will be reactive dog parking at this test for those who wish to park in this area, however the parking is tight and there will not be separate potty areas or warm up boxes. Due to unforeseen conditions, such as weather or change in availability of areas at the location, this policy may be modified at the last minute.

Unentered Dogs

Unentered dogs must remain in the competitor's vehicle during the test day. There will be ample potty areas, but unentered dogs should not be allowed to "play", exercise, or train on the test grounds.

RV Parking

RV parking cannot be accommodated at this event.

Due to unforeseen conditions, such as weather or change in availability of areas at the location, this policy may be modified at the last minute.

Running Vehicles or Generators in the parking lot

We anticipate that we will have a separate parking area for those wishing to run their vehicles or generators during the day.

Due to unforeseen conditions, such as weather or change in availability of areas at the location, this policy may be modified at the last minute.

Crating Options

There will be no indoor crating at this event.

Due to unforeseen conditions, such as weather or change in availability of areas at the location, this policy may be modified at the last minute.

Smoking

Smoking is not allowed on this test site, including the use of e-cigarettes

- Dogs will be toileted in designated areas and handlers must pick-up and dispose of waste.

Will be allowed to run wearing "pants" at the very end of the day after all other dogs have tested. Females in season will be parked and pottied in areas separate from the other dogs while at the test if the location logistics permit. Handlers must contact [Patty Sontag \[pattynosedogs@gmail.com\]](mailto:pattynosedogs@gmail.com) so plans can be made for the dog.

All attendees are required to adhere to the NACSW [COVID-19 I Guidelines and Rules](#)
